

PRODUCT SPECIFICATION

ABUS Granit Closed Shackle Padlock

The world leading Granit padlocks are manufactured by ABUS in Germany. They are the only high security padlocks in the world to be cathophoretically coated to ensure they are a fully weatherproof to a marine grade standard and suitable for prolonged used outdoors and in a saline environment. ABUS have assured that these padlocks will be resistant to corrosion for 40+ years.

This closed shackle version affords an insurance approved CEN Grade of 4 on our 65mm model and Grade 5 on the 80mm model. When unlocked the shackle can be removed completely and the key is retained within the padlock until the shackle is replaced.

This lock uses a patented ABUS Plus mechanism with over 250,000 different key variations. It is near impossible to pick and drilling the mechanism will not allow the lock to open.

Each lock is supplied with 2 keys, one of which has an integrated LED light. They keys cannot be copied without the special code card which is supplied with each lock.

Lock Types & Details:
